

Chateau Acadian Condominium Association Rules & Regulations

The following rules and regulations (“Rules and Regulations”), except as otherwise expressly stated, apply to all Owners and members of their families, guests, agents, lessees, employees, invitees and tenants with respect to the use of a Unit, the Common Elements and any other portion of the Project. Capitalized terms not specifically defined in the Rules and Regulations shall have the same meaning as the meaning given to such terms in the Condominium Declaration for Chateau Acadian Condominiums. These Rules and Regulations have been adopted as a reasonable means of promoting the enjoyable and safe use of Units without unduly interfering with others in their enjoyable and safe use of any Units and as a reasonable means of protecting the values of the Project.

Section 1 –Minimum Heating Requirements

1A. The Owner of each Unit in the Project shall heat such Unit so as to maintain a minimum temperature in a Unit of no less than 55 degrees Fahrenheit (“Minimum Temperature”) from October 1st of each year to May 31st of the following year in order to minimize any damage which could result from the freezing of water pipes which pass near or through each Unit. This Minimum Temperature must be met even when the Unit is vacant. The Board or Managing Agent is authorized during any Unit inspection to reset the temperature of that Unit to the Minimum Temperature.

Section 2 - Health, Safety and Quiet Enjoyment

2A. Between 10:00 PM and 8:00 AM of the following morning, all Owners and other occupants of any Units shall conduct their activities in all parts of the Project in a quiet manner so as to minimize disrupting any other Owner or occupant of any other Unit in their use of any part of the Project.

2B. No loud or objectionable noise, obnoxious odor, or bright light shall be permitted to emanate from any Unit or Common Element that may be deemed a nuisance to the Owners or occupants of any other Unit. Public intoxication is prohibited in any Common Element.

2C. No fireworks of any kind shall be carried, stored, displayed or exploded on or over the Project.

2D. No fire hazard, unsightly object or nuisance shall be placed, erected, constructed or permitted within the Project, nor shall any Owner or occupant of a Unit endanger the health or safety of any person or interfere with the peaceful possession and quiet enjoyment of any other Owner or occupant of a Unit. Among other things, flammable oils or fluids including, but not limited to, gasoline, kerosene, naphtha, benzene, explosives or any item hazardous to the environment, health or property shall be permitted on or about the Project without prior written Board approval. Under no circumstances shall any hazardous materials be kept in any storage space in contravention of fire regulations.

2E. A dumpster is provided for the disposal of normal household waste. Use of the dumpster for disposal of bulky, abnormal, hazardous or toxic materials, including, but

All food waste and similar items deposited in the dumpster are encouraged to be in sealed trash bags for safety and reduction of insects, animals and other pests. Recycling bins are available and their use are strongly encouraged.

2F. Waste not suitable for dumpster disposal, accumulations of refuse and other unsightly objects or materials will not be placed, kept or allowed to remain within the Project and shall be removed at the Owner's expense. The Managing Agent may be contacted to arrange for a dumpster to be used by an Owner for disposal of additional waste at such Owner's expense.

2G. The Board and Managing Agent are authorized to periodically inspect the interior of a Unit. Such inspection shall be done with respect to an occupied Unit only after prior announcement of such intent. The Board or Managing Agent may retain a passkey to each Unit within the Project. If a lock on a door is changed by an Owner, the Owner shall immediately provide the Board or Managing Agent with a new key. Failure to comply could result in, and each Owner hereby authorizes, forced entry to the Unit by either the Board or Managing Agent. Failure to comply will also result in the removal or re-keying of the lock at the Owner's expense. Any expense created by an Owner in the denial of access to their Unit shall be billed for the expenses incurred.

2H. All deliveries and moving of furniture, fixtures, equipment and other household or commercial items to and from the Units shall be made by authorized entries as reserved through Managing Agent and shall not cause any unreasonable noise or disturbance to the Owners or occupants of any other Units.

2I. Unit Owners and occupants shall not place a load on any floor exceeding the floor load per square foot area that the floor was designed or safe to carry and that is allowed by law or that may, in the reasonable opinion of the Board, constitute a safety hazard or may damage a Building.

2K. 2L. Each Unit shall have a charged and maintained fire extinguisher in the Unit.
