

HOA Specifications for Storm Doors and Exterior Trim at The PONDS

All trim work, exterior doors and finishes shall be consistent with the materials and colors of the unit. No grill work of metal or other materials shall be permitted.

As a recommendation most units have selected a Larson or Anderson storm door in the 'Sandstone' color. A recommended Larson door is #340-04 that is a 3/0 door, Classic Full View model. These doors are available at Home Depot and Lowes, or local retail stores including Breckenridge Building Center and Bighorn Lumber.
